Languages: HTML5, CSS, JavaScript, SQL, Java, C, C++

Developer Tools: VS Code, Figma, Canva

Technologies/Frameworks: GitHub, ReactJS, NextJS, NodeJS, ExpressJS, Git, TailwindCss, Bootstrap

PROJECTS

Currency Converter | HTML, CSS, JavaScript, API

- Built a responsive **Currency Converter using HTML, CSS, and JavaScript**, integrated with a real-time exchange rate API for accurate conversions.
- Implemented dynamic functionality to fetch and display live currency data using the **JavaScript Fetch API** and ensured cross-device responsiveness.
- Designed an intuitive user interface with input fields, dropdown menus, and error handling for invalid inputs or API failures.

Netflix Clone | HTML, CSS

- Developed a fully responsive Netflix clone using **HTML and CSS**, ensuring seamless compatibility across desktop, tablet, and mobile devices.
- Designed a visually appealing user interface with **CSS Flexbox and Grid**, replicating Netflix's layout, navigation, and hover effects.
- Demonstrated strong attention to detail by replicating Netflix's design elements, including buttons, typography, and movie grids.

INTERNSHIP

Stringly 

05 2024 – 08 2024

Graphic Designing

Remote

- Designed visually compelling graphics, including social media posts, banners, and marketing materials, aligning with brand guidelines and enhancing audience engagement.
- Utilized tools like **Figma, Illustrator, and Canva** to deliver high-quality designs within tight deadlines, demonstrating strong time management and creativity.
- Collaborated with the marketing and content teams to create innovative designs that supported campaigns and increased brand visibility.

POSITION OF RESPONSIBILITY

Jagriti

UI/UX

IIT BHU

- Collaborated with the team as a UI/UX Designer for the Jagrati Event at my college, designing user-friendly interfaces, facilitating team interactions, and ensuring a seamless and engaging experience for attendees.
